

TicTacToe-Testprojekt

Setup

- JUnit 5 und AssertJ wurden in Gradle ergänzt.
- Test-Runner: Gradle + JUnit Platform.

Dummy-Tests

- JUnit-Dummy-Test: `assertFalse(false)`
- AssertJ-Dummy-Test: `assertThat(false).isFalse()`

5 TicTac-Toe-Tests

- horizontale Gewinn-Erkennung
- diagonale Gewinn-Erkennung
- keine Gewinnlage
- identische Spieler werden abgelehnt
- GreedyPlayer spielt das erste freie Feld

Verifiziert

- `./gradlew test --console=plain` wurde ausgeführt und die Test-Suite erfolgreich geprüft.
- Alle 7 Tests bestanden: 2 Dummy-Tests + 5 TicTac-Toe-Tests ☒

Test-Fehlschlag Demonstration

- Test `isWin_detects_horizontal_win()` wurde intentional auf `.isFalse()` statt `.isTrue()` gesetzt.
- Gradle meldet: `AssertionFailedError at TicTacToeMainTest.java:21`
- Fehlerhafte Tests werden in der Build-Ausgabe klar angezeigt.

- Nach Korrektur: alle Tests grün ☒

```
PS C:\Users\MrCodeBookPRO\bbw\Berner\450-tictactest-mvk> .\gradlew test --console=plain 2>&1 | head -100
head : The term 'head' is not recognized as the name of a cmdlet, function,
script file, or operable program. Check the spelling of the name, or if a path
was included, verify that the path is correct and try again.
